THE COLLECTIVE

Change Edition 04

This edition of The Collective captures a month marked by steady strides and meaningful milestones. From environmental action to impactful collaborations, every story reflects a deeper commitment to doing things with clarity and care. It's a reminder that real change isn't just about forward motion — it's about moving together, with purpose, led by people who make it possible.

RECOGNIZED FOR EXCELLENCE

TBI Accolade for Mega Rubber

This quarter, Mega Rubber was honoured with the TBI (Toyota Business Innovation) Award, a proud achievement that celebrates the strength of consistency and teamwork. Selva Sir and Venkatesan accepted the award on behalf of the entire team. While this award celebrates the journey so far, it also sets the stage for what's next. For our team, this is just the beginning.

A GURUPOORNIMA TRIBUTE

Tree Plantation at Hosur

On the occasion of Guru Poornima, the Hosur team came together for a thoughtful act of sustainability, planting trees across the facility grounds. It was more than a symbolic gesture; it was a collective step toward long-term environmental responsibility. Through this initiative, we shared our commitment to the planet, and the future.

WALKTHROUGHS THAT MATTER

Customer Visit: Schneider Electric

In a key development this quarter, our facility welcomed the Schneider Electric team for a focused process audit. The discussion centred around our nine-part EPDM project, a collaboration that demanded clear benchmarks and operational transparency. The visit featured open dialogue, shared clarity, and aligned expectations, a testament to how strong partnerships grow when precision leads the process.

CELEBRATING THE JOURNEY

Farewell to Aarti Panchal

This quarter, we also said farewell to a valued teammate, Aarti Panchal. From her very first day, Aarti brought warmth, dedication, and an unwavering work ethic to every task. While parting ways is never easy, her goodbye is filled with gratitude and appreciation. As she steps into her next chapter, she leaves behind a legacy of teamwork and resilience that will be remembered well beyond her time with us.

EMPLOYEE SPOTLIGHT

Celebrating our Everyday Stars

Arzaan started his journey at HUSE as a design intern, quickly adapting to the workplace and building core skills along the way. Today, as a Design Executive, he brings the same focus to a broader set of responsibilities. A standout project was his design of the Ashok Sujan Scholarship Scheme logo, a chance to blend purpose with creativity. He admits that good music helps him get through Mondays, and that he's a little scared of Sonali (but very grateful for her guidance). Arzaan's journey reflects the kind of talent we're proud to grow at HUSE.

SMART SOLUTIONS, REAL-TIME IMPACT

Partnership with Kallipr

This quarter also marked a strategic partnership with Kallipr — an Australia-based leader in industrial-grade IoT monitoring. Known for their reliable Captis devices and expertise in telemetry, Kallipr has been enabling smarter infrastructure across logistics, transport, and utilities worldwide. Through this collaboration, we're expanding our real-time data capabilities by integrating advanced monitoring with on-ground operations. Together, we're not just collecting data — we're unlocking smarter decisions and measurable impact across India's evolving infrastructure landscape.
